Logo

Meet our Logo

Our logo draws inspiration from the company's past while providing a unique and modern feel to help propel the company into the future.

The teal triangle and A are reminiscent of the two mountain peaks from our original logo.

The teal triangle is behind the A, representing how we collaborate behind the scenes to make our clients shine.

Lowercase font was intentionally chosen to convey our approachability and the welcoming manner of our relationships.

Logo

Variations

Our primary logo is preferred, choosing the appropriate variation depending on the background.

A secondary logo is used when a square or circular frame is needed (ex social media)

Typography

Primary Font

Poppins is the font that we'll primarily use, selected for its clean, modern appearance, multiple weights, and wide availability.

It should be used for all applications.
